Flow

1. Nature of LGUs

- **Local Governments or Local Government Units are:**
 - Territorial and Political Subdivisions
 - Public Corporations
 - Municipal Corporations Proper
 - Administrative Agencies
 - Public Offices
- “Ours is still a **unitary form** of government, not a federal state.”
- LGUs do **not** have **constitutionally-protected sovereignty**. LGUs have **no claim against the State**.
- LGUs are **not** “*Imperium in Imperio*” (empires within an empire), not Independent Sub-National Units.

1. Nature of LGUs

- LGUs are “**not impenetrable states**”; under **supervision** of President and may be held **accountable**; President has general supervision over provinces, HUCs, and independent component cities
- **5 Levels/ Kinds** (Autonomous Regions [only BARMM incorporated], Provinces, Cities [CC, ICC and **HUCs (not under provincial oversight)**], Municipalities and Barangays)
- **Territorial: delimited by law, not by exercise of jurisdiction; Baguio City, under its Charter, is exempted from coverage of IPRA**
- **Sources of Powers: Constitution, Law and Charter (No inherent, but have broad, powers; not self-government)**

1. Nature of LGUs

- **Separation of Powers** (Legislative, not constitutional)
- **Corporate Succession** (Contractual Obligations); cannot be rescinded unilaterally by next Administration
- **LGU Dual Capacities** (distinction relevant for delegation purposes):
 - Governmental/ Public (e.g. repair of municipal roads, **issuance of business permits**)
 - Proprietary/ Private (e.g. waterworks, cemetery, markets)
- **Dual Agency**: LGUs as Agents of the State (in exercise of government powers) and People/Community (in exercise of proprietary powers); **agencies of the community in the administration of local affairs and mediums through which the people act in their corporate capacity on local concerns**

1. Nature of LGUs: Creation

- **Legislative Act:** Charter (Not by Executive Branch but becomes de jure if State-recognized and No Judicial Dissolution; **President can merge administrative regions**); congressional, not executive, authority to set requirements for specific levels of LGUs other than what is stated in LGC; **BARMM, through BARMM Transition Authority (BTA) and Chief Minister, can create municipalities per BARMM Organic Act since legislative and executive powers vested in BTA during transition;** Provincial and City Council can create barangays but must follow the requirements in the law
- **Criteria:** Population, Land Area (**includes DENR-managed forestlands**) and (or) Income (internal [if M to CC] or external); **liberal construction**
- **Distinct Personality:** Municipality when converted to a City
- **Seat of Government:** Failure to identify not fatal
- **Assail Existence:** Quo Warranto (5 years)

1. Nature of LGUs: Creation

Plebiscite

- electorate - plurality and economic dislocation; directly affected (including voters of original municipality, not just voters of new municipality)
- cannot be dispensed with (creation or abolition cannot be effected by mere repeal of an ordinance)
- upgrade and downgrade
- boundary disputes present a prejudicial question
- plebiscite protest cases – Comelec
- approval in a plebiscite is the operative act which ipso facto creates and segregates the province; if election of officials of newly-created province is not feasible, the incumbent vice-governor serves as acting governor; hold-over applies only if there is no express or implied legislative intent to the contrary
- conversion to HUC is substantial alteration of boundaries; substantial alteration requires a plebiscite without which, area remains with the Republic
- Sulu no longer part of BARMM since its voters did not ratify the Organic Act

1. Nature of LGUs: Creation

Boundary Disputes

- When a portion or whole of territory being claimed by 2 or more LGUs
- primordial consideration is legislative intent
- due weight should be given to the contemporaneous interpretation of the courts and other lawful authorities and by the population at large residing therein; maps published by authority of law may be referred to as evidence; Unrebutted testimony of Mayor greater weight than residents
- Survey plan repeatedly recognized by duly constituted authorities prevails over a map prepared by a party to case
- Preponderant evidence needed to establish if area falls within new boundary line
- Resolve by supervising LGU or jointly by sanggunians
- If between 2 HUCs, joint referral to councils of both HUCs; if no settlement, certification will be issued

2. Local Autonomy

- “means a **more responsive** and **accountable** local government structure instituted through a system of **decentralization**” (relates to dual capacity/ agency)
- “does **not** contemplate making **mini-states** out of LGUs”
- “LGUs xxx form **part of the whole**” (unitary)
- “**Regional autonomy** is the degree of self-determination exercised by the LGU vis-à-vis the central government.”
- “**Autonomy** is either decentralization of administration or decentralization of power.”
- “Decentralization comes in two forms: **deconcentration and devolution.**”
- “Decentralization simply means the **devolution of national administration**, not power, to LGUs.”

2 Views on Local Autonomy: Centralist and Liberalist

Centralist View of Local Autonomy

LGUs can only exercise those powers:

1. Expressly given/ delegated to them,
2. Necessarily implied from expressed powers,
3. Incidental to expressed powers,
4. Consistent with the Constitution, Laws and LGU Charters, and
5. Consistent with Rules, Policies & Directives issued by National Agencies.

- “Cut-and-paste” and nothing else
- What is not given is withheld
- Restricted and limited

Liberalist View of Local Autonomy

LGUs can exercise those powers:

1. Expressly given/ delegated to them,
2. Necessarily implied from expressed powers,
3. Incidental to expressed powers, and
4. Not inconsistent with the Constitution, Laws and LGU Charters.

- For as long as not prohibited by law & it will serve the general welfare, allowed.
- Broad and enhanced

2. Local Autonomy

<i>Decentralization of Administration</i>	<i>Decentralization of Power</i>
Delegation of Administrative Powers – Regulatory Powers and Basic Services	Abdication of Political Power
Relieves State from Burden of Managing Local Affairs	Free to Chart own Destiny
Executive Supervision	Executive Supervision Minimal State Intervention
Accountability to Central Government	Accountability to the Constituency; Self-Immolation
Provinces, Cities, Municipalities and Barangays	Autonomous Regions

2. Local Autonomy

Bangsamoro Autonomous Region in Muslim Mindanao

- BARMM Organic Act (BOA) constitutional
- Not a separate state
- Autonomy limited to internal governance
- Limited by national policies and standards (1991 LGC)
- Sulu excluded since not vote for ratification of BOA
- Congress can provide for BARMM Parliament (fusion of executive and legislative powers)
- Members of BARMM Parliament under the Organic Act must be elected, not appointed by the President even if in an interim capacity
- BARMM Parliament has the power to apportion parliamentary district seats (Congress cannot impose a minimum since this would violate Organic Law)

2. Local Autonomy

<i>Administrative Decentralization</i>	<i>Political Decentralization</i>
Deconcentration	Devolution
Transfer of Functions: National to Regional	Transfer of Powers: Central to LGUs
Administrative	Powers, Responsibilities and Resources
LGC: Section 528	LGC: Section 17

2. Devolution

Components:

1. Delivery of Basic Services
 2. Exercise of Regulatory Powers
 3. Personnel
 4. Assets, Equipment and Property
- **Administrative autonomy involves devolution subject to limitations – national policies, standards and laws**
 - **Exempted from devolution are nationally-funded projects, facilities and programs**
- Devolution is **power-specific**. Only those powers enumerated by law are transferred to LGUs.
 - Those not expressly transferred are retained by the NGAs/AAs.
 - **Political Question/** Congressional Plenary Power (devolved and to recentralize)
 - **Source:** 1991 LGC and other laws
 - **Full devolution** due to National Tax Allotment (EO 138-2021)

2. Devolution

Basic Services

- School Buildings (DEPED)
- Hospitals (DOH), *not national hospitals*
- Socialized Housing (NHA)
- Agricultural Extension (DA)
- Day-care Centers (DSWD)
- Community-based Forestry Projects (DENR)

Regulatory Powers

- Approval of Subdivision Plans (HLURB), *not of national significance*
- Inspection to check compliance with noise standards (Nat'l Pollution Control Comm.)
- Enforcement of Environmental Laws (DENR), *not regulation of pesticides, (Fertilizer and Pesticide Authority)*
- Franchising of Tricycles (LTFRB), *not PUBs/ PUJs, not LTO*
- Inspection of Meat Products (DA)
- *Not grant of franchise for cable TV operations (NTC)*
- *Not control and regulation of the use of ground water (NWRB)*
- Enforcement of National Building Code (DPWH) *(impose stricter requirements under police power)*

2. Local Autonomy

<i>Areas</i>	<i>Delegation</i>	<i>Devolution</i>
<i>What is transferred?</i>	State Powers	Power of NGA
<i>Basis of Transfer</i>	Law; Congress	Congress (or President)
<i>Effectivity of Transfer</i>	Immediate; law effectivity	NGA facilitates actual transfer
<i>Examples</i>	Police Power, Tax, Expro, Local Legis	DSWD; DENR; HLURB; LTFRB

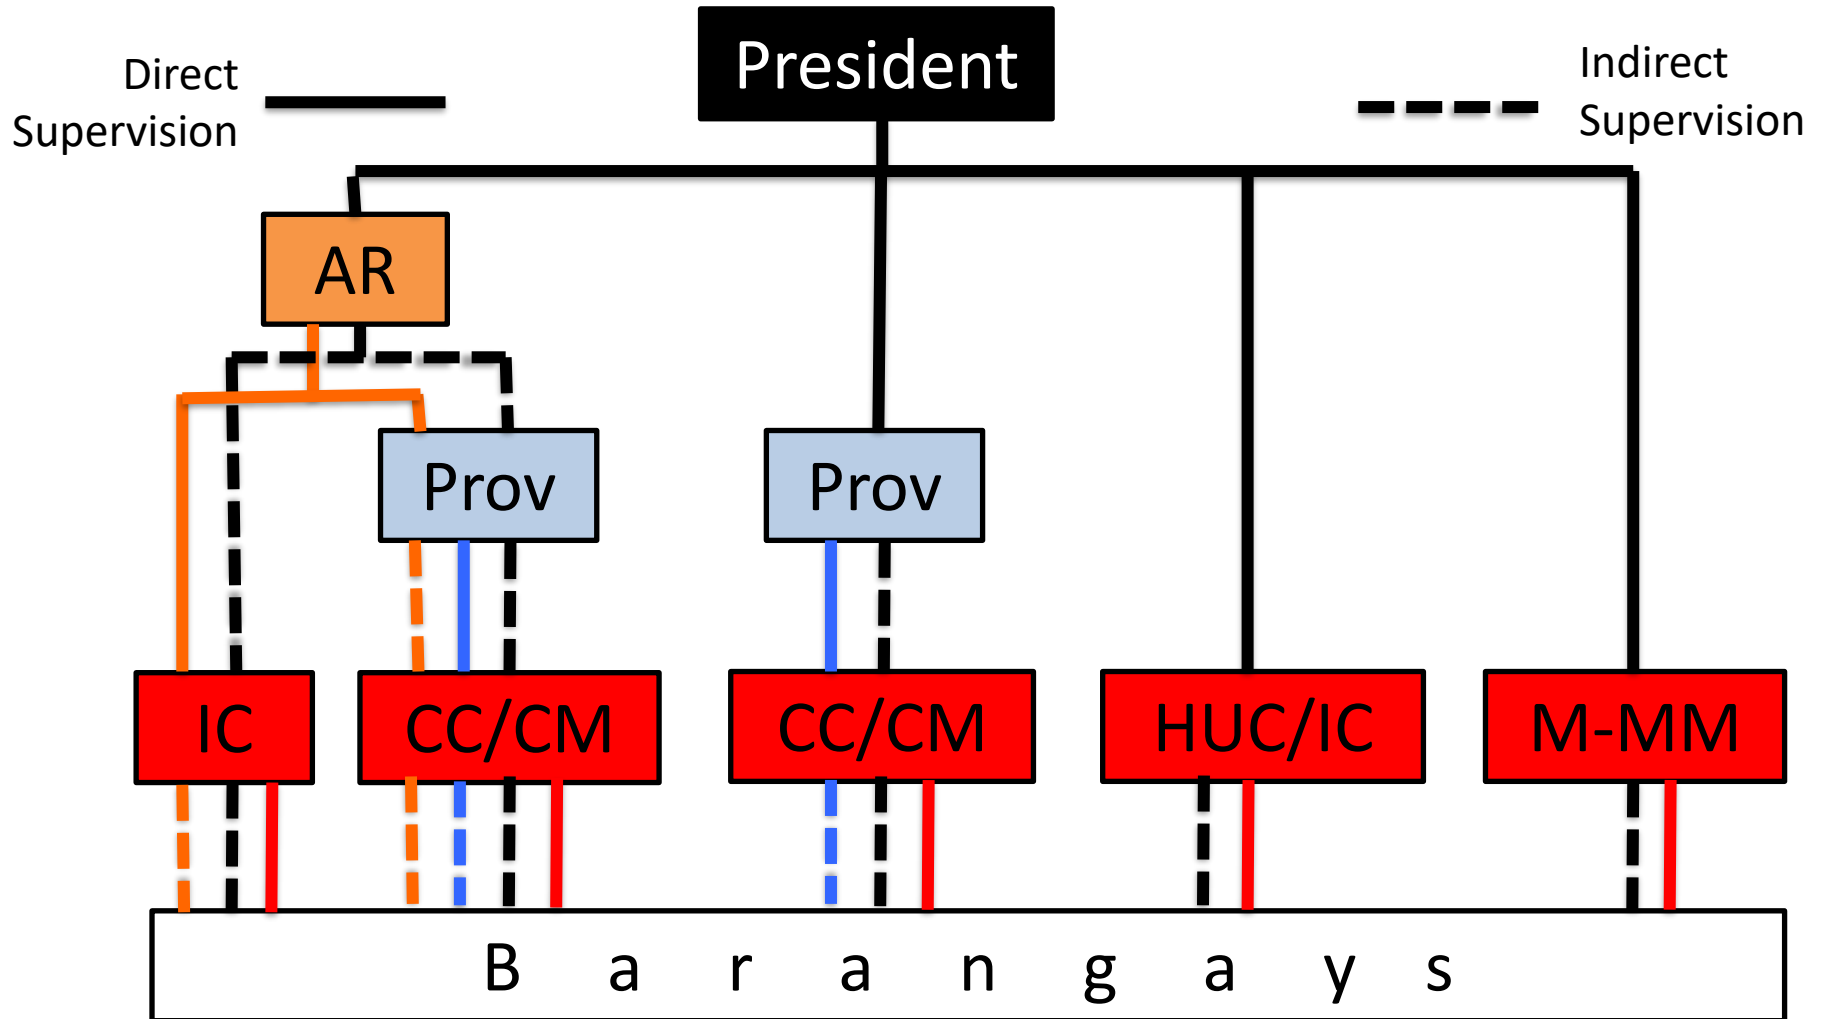

2. Local Autonomy

- **Congress retains control** of the local government units although in significantly reduced degree
- The Constitution confines the President's power over the LGUs to one of **general supervision**. This provision has been interpreted to exclude the power of control.
- cannot be **“blunted by undue interference by the national government in purely local affairs”** (PDAF)
- The President can only interfere in the **affairs** and activities of a local government unit if he or she finds that the latter has acted contrary to law; **DILG can require full disclosure of budgets and expenses of IRA since required by law**
- “The matter being peculiarly **local in nature**, the municipal council alone is in a better position xxx” (Principle of Subsidiarity); **superior competence** in local matters; **purely local affairs best resolved by the officials and inhabitants of such political units; especially if so authorized by law, and no law is violated and when LGU has discretion as in zoning regulations (“photobomber” building); requiring prior approval of barangay bingo from PAGCOR when no such requirement violates local autonomy**

Hierarchy/ Relationship

2. Local Autonomy

Supervision

- Overseeing
- Ensure that supervised unit follows law/ rules
- Allows interference if supervised unit acted contrary to law
- Over actor (discipline) and act (declare illegal)
- There must be a law, otherwise, control/ undue delegation/ violate local autonomy (Yes - DOJ, DBM; None - OP, DILG, DENR)
- Only involves questions of law (i.e., declare act legal or illegal/ ultra vires), not wisdom/ questions of fact; cannot declare acts against general welfare, excessive, confiscatory

Control

- Lays down rules in doing of an act
- Impose limitations when there is none imposed by law
- Preempts action/ discretion
- Decide for subordinate
- Substitute/ change decision
- Alter wisdom, law-conforming judgment or exercise of discretion
- Discretion to order act undone or re-done
- Prescribe manner by which act is done

2. Local Autonomy

In favor of NGA/GOCC/GI if:

- Integration
- Centralization
- Avoid fragmentation
- Preemption allowed
- National/ Broader Interest
- Mandate exclusive under Charter/ law
- Implied repeals not favored
- Instrumentalities of the State
- National or cross-boundary concerns are best addressed by NGAs/ GOCCs

National Dimension Rule

*Main/ Default Rule:
Follow law.*

In favor of LGU if:

- ‘Isolated’ issue
- General Welfare
- No law will be violated
- As agents of communities
- Amounted to executive control
- Express repeal; categorical/ clear implied repeal
- Rules of interpretation
- Beyond powers of NGA/ GOCC
- Local concerns are best addressed by LGUs (Principles of Subsidiarity and Stewardship)

Local/ Municipal Dimension Rule

3. Powers of LGUs

- LGUs do not possess **inherent powers** but have **broad powers** because of local autonomy
- Unlike other Administrative Agencies, LGUs can **prohibit an activity** when there is no law which prohibits
- LGUs have constitutional and statutory **powers**
- Powers **interpreted** in favor of LGUs (local autonomy; fiscal autonomy; local over national; lower over higher)
- **Liberal** (devolution, fiscal autonomy) and **strict** (**police power**, taxation and **eminent domain**) interpretation

3.1 Police Power

- **Authorities:** Delegated to all LGUs
- **Definition:** Authority to impose burdens on private property/ restrain and regulate use of liberty and property
- **Basis:** *General Welfare Clause* is “the delegation in statutory form of the police power of the State to LGUs”
- **Legislative:** Police power exercised mainly through an ordinance
- **Reason for Delegation:** Dual Agency
- **Hierarchy:** The general welfare in terms of economic benefits cannot override the very basic rights to life, security and safety of the people

3.1 Police Power

- **Scope:** not give LGU invincible authority (cannot take private property); **not over-** (greater burden than necessary) or **under-inclusiveness** (ban on aerial spraying since the occurrence of pesticide drift results from any mode of pesticide application)
- **2 Requisites:** (1) Lawful Subject (equal protection; public interest requires interference) *and* (2) Lawful Method (due process; reasonable means to achieve purpose)
- **2 Tests:** Rational Relationship (governmental interest and means) *and* Strict Scrutiny (compelling, not just substantial (2016) – e.g. juvenile safety in curfew)
- **2 Branches:** General Legislative – what law expressly allows (e.g., abate nuisance, business permit, curfew) and Police Power Proper – based on principles/ policies (e.g., prohibit activity, CDO)

3.1 Police Power

- **Precautionary principle:** relevant if there is concurrence of three elements, namely: (scientific) uncertainty, threat of environmental damage and serious or irreversible harm. In situations where the threat is relatively certain, or that the causal link between an action and environmental damage can be established, or the probability of occurrence can be calculated, only preventive, not precautionary measures, may be taken; application against aerial spraying cannot be solely based on a fact-finding study which is not a scientific study (not meant to apply to all environmental cases)

3.1 Police Power

Invalid

1. Impose mining ban on large-scale mining
2. Prohibit setting up of PCSO lotto outlets
3. Regulate Jai Alai frontons
4. Regulate professions regulated by PRC
5. Operate dumpsites in violation of environmental standards
6. Issue drivers' licenses
7. Register motor vehicles
8. Regulate or Tax jueteng
9. Prohibit the operation or establishment of massage parlors, beerhouses, motels, etc. in a certain area/ road or require conversion to other businesses without just compensation

3.1 Police Power

9. Order the closure of a bank not performing illegal activities for non-payment of taxes
10. Padlocking of an establishment without according owner due process
11. Allow 3 cockpits
12. Declare a bus terminal a nuisance per se and order its closure
13. Declare a thing a nuisance per accidens
14. Demolition of a building without court order
15. Declare a gas station as nuisance per se
16. Ban Rallies
17. Lease of public plaza
18. Wanton denial of issuance of mayor's permit
19. Mayor not remove oil terminals per ordinance
20. Mayor not release funds when appropriations approved

3.1 Police Power

21. Demolish a wall or build a fence with a setback for the purpose of allowing the general public to use the property of the private owner for free depriving the owner of exclusive use
22. Mayor ordering demolition of structures violating National Building Code (Building Official is the one authorized)
23. Order the summary demolition or eviction if it was not shown that the structures are in danger areas or public areas; or when the occupants are neither new squatters nor professional squatters nor members of squatting syndicates as defined in RA No. 7279
24. Order a donation of delineated road without just compensation
25. Demand compliance within an unreasonable period under pain of penalty
26. Require a bus company to use city bus terminal and stop using its private terminal (traffic congestion valid purpose but means excessive and unreasonable; not show no other solution)

3.1 Police Power

Valid

1. Issue a zoning ordinance
2. Prohibit the expansion of a hospital based on the approved a new zoning ordinance
3. Restrict the use of property since contractual restrictions on the use of property could not prevail over the reasonable exercise of police power
4. Declare a thing a nuisance per se
5. Demolish a hotel declared as a nuisance per accidens since property rights can be subject to restraints in order to fulfill objectives of government
6. Order stoppage quarrying operations when operator has not secured provincial permit

3.1 Police Power

7. Privatize the administration of parking for environmental and peace and safety reasons
8. Punong barangay can issue barangay protective order (Anti-Violence against Women and Children)
9. Purchase the property on behalf of the city (by the City Treasurer), in the absence of the public in the public bidding
10. The authority of a municipality or city to impose fees is limited to the collection and transport of non-recyclable and special wastes and for the disposal of these into the sanitary landfill. Barangays, on the other hand, have the authority to impose fees for the collection and segregation of biodegradable, compostable and reusable wastes from households, commerce, other sources of domestic wastes, and for the use of barangay MRFs

3.1 Police Power

11. Demolitions and evictions may be validly carried out *even without a judicial order* in the following instances: (1) when the property involved is an expropriated property xxx pursuant to Section 1 of P.D. No. 1315; (2) when there are squatters on government resettlement projects and illegal occupants in any homelot, apartment or dwelling unit owned or administered by the NHA pursuant to Section 2 of P.D. No. 1472; (3) when persons or entities occupy danger areas such as esteros, railroad tracks, garbage dumps, riverbanks, shorelines, waterways and other public places such as sidewalks, roads, parks and playgrounds, pursuant to Section 28(a) of R.A. No. 7279; (4) when government infrastructure projects with available funding are about to be implemented pursuant to Section 28(b) of R.A. No. 7279
12. Redeem property for tax deficiency notwithstanding fraud committed by officers
13. Supervise and control the collection of garbage

3.1 Police Power

14. Impose **curfew** on minors since there is (1) compelling reason to promote juvenile safety and prevent juvenile crime (strict scrutiny test) and complement parental supervision (*parens patriae*); however, it must (2) provide for the least restrictive means to achieve this interest (provide adequate exceptions that enable minors to freely exercise fundamental rights during curfew hours) and therefore (3) narrowly drawn to achieve the State's purpose [school, church, legitimate non-school or non-church and civic activities, political rallies, peaceful assemblies])
15. Issue a **cease and desist order** and order the closure of a poultry farm for failure to apply for and secure the necessary business permit to operate, on account of inability to obtain the required barangay clearance due to complaints of foul odor being emitted by the said farm

3.1 Police Power

16. Impose **stricter limitations** for the construction and regulation of billboards since the National Building Code only imposes minimum requirements; police power of the City originates from its charter and not from the National Building Code
17. An **anti-obscenity ordinance** cannot be falsely attacked for overbreadth, because obscenity is not protected speech. The overbreadth doctrine finds special and limited application only to free speech cases, not obscenity prosecution. Laws that regulate or proscribe classes of speech falling beyond the ambit of constitutional protection cannot, therefore, be subject to facial invalidation because there is no “transcendent value to all society” that would justify such attack.

3.2 Eminent Domain

- **Definition:** Taking of Private Property (or LG property held in its proprietary capacity) for a Public Purpose upon payment of Just Compensation
- **Taking:** actually deprived, dispossessed, practical destruction, material impairment of value, deprived of ordinary use
- **Compared to Police Power:** Compensable Taking (can be used after taking/ post-taking benefit; transfer of business; portion of cemetery for indigent and declaring a privately-owned road as public road - ED; zoning - PP)
- **Delegated:** Not Inherent, ‘Inferior’ Domain
- **Limitations:** Observance of due process and Payment of just compensation (strict construction)

3.2 Eminent Domain

- **Foundation:** genuine public necessity (not present when others willing to sell; nearby facilities available)
- **Enabling Measure:** Ordinance (Not Resolution) (Ordinance authorizing filing of expropriation case carries with it authorization to sign verification and non-forum shopping certification)
- **Inverse Condemnation:** taking of property without filing a case and subsequent payment of just compensation when property taken for public offices for considerable period
- **LGU Branch:** **Essentially Legislative** but also Executive (filing of expropriation case); cannot convert private property for public thoroughfare without filing a case)
- **Reason:** stated in Ordinance
- **Public Purpose:** a continuing requirement
- **Sequence:** Ordinance **before** Expropriation case
- **Jurisdiction:** **RTC** since incapable of pecuniary estimation

3.2 Eminent Domain

- **Offer:** Valid and definite offer (not just meeting to discuss project and price; **must renegotiate if 1st offer rejected for being too low**)
- **Just Compensation:** consider all relevant factors such as BIR zonal valuation, current value of similar properties, acquisition costs, actual or potential land use
- **Other Laws:** Comply with Constitution and Statutes (e.g. UDHA where private land last option, **follow order of priority**; Right of Way Act not applicable since law applies to national infrastructure projects)
- **Immediate Entry:** **Sufficiency in Form and Substance and Provisional Deposit**; Determination of public purpose in a hearing not required
- **Prompt payment:** Required

3.2 Eminent Domain

- **Role of Higher-Reviewing LGU:** Question of Law - Within Scope, Followed Law and Procedure (Not Choice of Property)
- **Role of Courts (RTC):** Necessity, Choice of Property, **Just Compensation** (evidentiary matter and judicial; appraisals by LGUs are not controlling), Requirements, Compel Execution/ Payment
- **Role of NGAs:** DA/ DAR approval not required (agricultural land)

3.2 Eminent Domain

<i>Eminent Domain</i>	<i>Zoning</i>	<i>Reclassify</i>	<i>Conversion</i>
Taking	Police Power	<u>Administrativ</u>	Administrativ
Change of Owner	No Change	No Change	No Change
Any Land	Any Land	Agri to Non-Agri	Agri to Non-Agri
Change in Use of Land	No Actual Change	No Actual Change	Change in Use of Land
All LGUs	(P)/C/M	C/M	DAR

3.3 Corporate Powers

LGUs are Public Corporations

- continuous **succession** in its corporate name (despite changes in administration; LGU has separate juridical personality from officers)
- **sue** and be sued (statutory waiver of immunity)
- have and use a **corporate seal**
- acquire and convey real or personal **property** (subject to statutory restrictions)
- enter into **contracts** (follow statutory requirements)
- exercise such **other powers** as are granted to corporations, subject to the limitations provided in this Code/ other laws (power to incorporate)
- **full autonomy** in the exercise of their proprietary functions

4.1 Fiscal Autonomy

- Fiscal autonomy is a **constitutional mandate implied** from Sections 2, 5, 6, and 7, Article X
- “**Local autonomy** includes both administrative and fiscal autonomy.”
- “**Fiscal autonomy** means that local governments have the power to create their own **sources** of revenue in addition to their equitable share in the national taxes released by the national government, as well as the power to **allocate** their resources in accordance with their own priorities.”
- “It extends to the preparation of their **budgets**, and local officials in turn have to work within the constraints thereof. They are not formulated at the national level and imposed on local governments, whether they are relevant to local needs and resources or not.”
- Fiscal autonomy does **not** leave LGUs with **unbridled discretion** in the disbursement of public funds. They remain accountable to their **constituency**; City has **fiscal responsibility** to ensure that barangay funds would not be released to a person without proper authority

4.1 Fiscal Autonomy

- “The only way to shatter this culture of dependence is to give the LGUs a wider role in the delivery of basic services, and confer them **sufficient powers to generate their own sources** for the purpose.” (no local autonomy without fiscal autonomy and vice-versa)
- The fundamental principles in local fiscal administration state that no money shall be paid out of the local treasury except in pursuance of an appropriations ordinance or law, and that funds and monies shall be spent solely for public purposes
- “The important legal effect of Section 5 (of Article X of the 1987 Constitution) is that henceforth, in **interpreting statutory provisions** on municipal fiscal powers, doubts will have to be resolved in favor of municipal corporations.”
- **NGA** cannot impose limitation when law imposes none. (allowance of judges, RATA)

4.2 Power to Tax

- **Nature of Grant:** Constitutional (not merely statutory); Not inherent (subject to qualified congressional control); **not absolute**; but statutory limitations must not be inconsistent with local autonomy
- **Legislative Control:** Congress must still see to it that (a) the taxpayer will not be over-burdened or saddled with multiple and unreasonable impositions; (b) each LGU will have its fair share of available resources; (c) the resources of the national government will not be unduly disturbed; and (d) local taxation will be fair, uniform and just
- **Contrasted with Regulatory Fees:** a regulatory fee must not produce revenue in excess of the cost of the regulation because such fee will be construed as an illegal tax when the revenue generated by the regulation exceeds the cost of the regulation (e.g. garbage fee)

4.2 Power to Tax

- **Object:** “Widen tax base of LGUs”
- **List:** not exclusive (e.g. socialized housing tax); even if no grant since part of residual power provided no prohibition
- **Exclusive Benefit:** shall exclusively accrue to levying LGU; Local taxes cannot be earmarked for non-LGU use
- **Taxes are LGU-specific:** municipality cannot levy franchise tax, only provinces and cities could, even if later on municipality converted into a city and even if so allowed under an administrative order
- **Lifting of Tax Exemption:** removal of the blanket exclusion of instrumentalities and agencies of the national government from the coverage of local taxation

4.2 Power to Tax

Liable

- Property owned by Republic when beneficial use is granted to a taxable person
- Meralco (Pre-LGC exemption lifted)
- PLDT (most favored clause is not tax exemption)
- Presidential-created EcoZones
- Since GOCC:

 - Lung Center
 - PPA
 - UP (improvements owned by lessee)

 - PRA
 - UP over assets it owns
- Post-LGC exemption by NHA, a GOCC
- PAGCOR (governmental power)
- Public Domain Properties
 - PPA Ports
 - MIAA Airport

4.2 Power to Tax

- **Exemption non-transferable**
- **When cap imposed:** LGUs can levy below cap set by law since LGUs given option
- **Exceptions:** Any exception to the express prohibition under the LGC should be specific and unambiguous
- **Executive Review:** DOJ review mandatory unless pure question of law; DOJ review procedure applies to taxes, not fees

4.2 Power to Tax

- **Real Property Tax:** extends to municipal waters; submarine cables are akin to electric transmission lines, hence not exempt; collection is vested in the locality where the property is situated as stated in the certificate of title until amended through proper judicial proceedings; Property of UP leased for educational purposes and in support of its educational purposes exempt but not the improvements made by lessee-private party
- **Business tax:** cannot be imposed on condominium corporations since not engaged in business; there is double taxation if same activity is taxed based on business tax on manufacturers and business tax on any other business; LBT on banks cannot be imposed on holding companies since these are not banks; holdings company not liable since it is not doing business, it is not a bank nor other financial institution and it is a non-financial bank intermediary
- **Petroleum Products:** prohibition on the imposition of tax on petroleum products includes non-imposition of excise tax on petroleum products and business tax on petroleum business

4.2 Power to Tax

- **Socialized Housing Tax:** not confiscatory since below what the Urban Development and Housing Act allows
- **Sand and Gravel Tax:** province can only impose on public, not private, lands
- **Cooperatives registered under Cooperative Code:** exemption from real property taxes applies regardless of whether or not the land owned is leased; exemption extends to cooperative's lessee
- **Amusement Taxes:** allowed for cinemas, not golf courses; if the graded film for which the revenue to be realized is yet to be exhibited, the taxes deducted/withheld should go to the LGUs

4.2 Power to Tax

- **Garbage Fee:** excessive if covers all forms of solid waste since law only allows special classes of waste materials
- **Double Taxation:** no double taxation when franchise tax levied by national government and local government; charging the same business a tax on “Manufacturers, Assemblers and Other Processors” and a tax on “Businesses Subject to the Excise, Value-Added or Percentage Taxes under the NIRC” constitutes double taxation
- **Assessment Letter:** must state nature of tax and deficiency but need not state the provision in the ordinance; an owner must be given an authority to prove the valuation is unfair or wrong

4.3 National Tax Allotment

(Internal Revenue Allotment)

- *Mandanas 2018*: Must include all national taxes, like custom duties, not just internal revenue taxes; the phrase “as determined by law” qualifies the phrase “just share,” not “national taxes”; no need for yearly appropriation (**scope of national taxes**)
- *Alvarez 1996*: IRA part of **income**
- *Pimentel 2000*: Withholding of IRA amounted to control and infringed on fiscal autonomy; Requirements under LGC not followed (**executive withholding**)
- *Batangas 2004*: Placement of IRA in Local Government Special Equalization Fund violative of fiscal autonomy and automatic release provision (**legislative withholding**)
- *ACORD 2005*: **Earmarking** of IRA in Unprogrammed Funds does not conform with automatic release provision; GAA cannot amend LGC since rider (**legislative withholding**)
- *CSC 2005*: ‘**No Report, No Release**’ policy runs counter to automatic release provision (**regulatory withholding**)

4.4 Other Sources of Funds

Constitutional

- Equitable Share in Utilization and Development of National Wealth (only over land area, not continental shelf; province has no share if area remains part of Republic absent a plebiscite; Bulacan not entitled to share in MWSS revenues over Angat Dam since water is appropriated water, not national wealth and MWSS not engaged in utilization and development of natural resources)
- Fees and Charges
- Other Sources

Statutory

- Loans
- Grants
- Private Sector Participation
- Bonds and Debentures

5. Local Legislation

Characterization

- Delegated Authority (by Constitution and Law)
- Subordinate Legislation/ Hierarchy of Laws (to Constitution and Laws – Ordinances inferior to statutes (cannot regulate what is regulated by statute as in reclassification of property); cannot impose a mining ban since allowed by Congress; Pass tests of constitutionality and consistency with prevailing statutes; early retirement ordinance not violate law against proliferation of supplementary retirement benefits; conformity with law is one of essential requisites for validity of municipal ordinance such as RA 10630 and PD 603 – City or municipal councils may impose curfew as may be warranted by local conditions; minors caught in violation of curfew ordinances are children at risk)

5. Local Legislation

Characterization

- Denominated Legislation (must follow procedures)
- Derivative Legislation (from people)
- Legislative Discretion: to create the office of the Local Building Official separate and distinct from the Office of the City Engineer
- 2 modes: through the regular legislative process or through initiative or referendum, another legislative body cannot be created

5. Local Legislation

Rebuttable Presumptions

- Presumed Valid and Constitutional (substance): To overthrow this presumption, there must be a clear and unequivocal breach of the Constitution, not merely a doubtful or argumentative contradiction.
- Sanggunian presumed to have acted with regularity (procedure)

5. Local Legislation

Local Legislative Bodies

- Collegial Body (in a session; verbal concurrence not enough)
- **Vote Requirement:**
 - Ordinance/ issue a resolution - majority of all members present
 - Directing payment of money or creating a liability, and appropriations ordinances – majority of total number of *sanggunian* members voted into office
- Voting Requirement (Majority, exceptions)
- Integrity of Procedure (parole evidence, oral testimony, burden of proof)
- 1st day of Session (Internal Rules of Procedure; Other Matters)
- 3 Readings (possible 3 readings in 1 day)

5. Local Legislation

Local Legislative Bodies

- No Coercive Powers (must be delegated by law; unlike Congress)
- Violation of ordinances (e.g. traffic violation) alone is insufficient to trigger warrantless search and seizure especially if penalty does not involve imprisonment
- Tax Ordinances: Notice and Public Hearing
- On Contracts: Prior authorization (ratification); not filing of cases except when required by law, e.g., eminent domain; positive act (written donation and acceptance) from owner for land transfer to LGU
- Penalties: when law only allows for regulation (curfew) and prohibits imposition of penalties, ordinance cannot provide for fine, imprisonment, loss of property, right or privilege, and reprimand, but community-based programs such as community service and admonition permissible

5. Local Legislation

<i>Ordinances</i>	<i>Resolutions</i>
Equivalent to Law	Expression of Sentiment or Opinion
Public or Governmental	Private or Proprietary
More or Less Permanent	Temporary
GR: undergo 3 readings	GR: undergo 2 readings
All subject to Veto and Review	Only Some subject to Veto and Review

5. Local Legislation

Why Distinguish?

- Legality (expropriation; reclassification; approval of terms of loan [amended in 2015])
- Applicable Procedure (veto and review)
 - Ordinances subject to review, published and posted (loan obligation)
 - Authority to sign contract in resolution form but the terms of loan obligations must be authorized in an ordinance (amended in 2015)

5. Local Legislation

Tests are divided into the formal (i.e., whether the ordinance was enacted within the corporate powers of the LGU and whether it was passed in accordance with the procedure prescribed by law), and the substantive (i.e., involving inherent merit, like the conformity of the ordinance with the limitations under the Constitution and the statutes, as well as with the requirements of fairness and reason, and its consistency with public policy; must have factual basis; ordinances should be read and implemented with related statutory law)

Tests of Valid Ordinance: Ordinances must **NOT**:

- contravene Constitution
- be inconsistent with Statutes
- discriminate
- be unreasonable
- be contrary to public policy
- prohibit trade
- **oppressive and confiscatory**
- **violate property rights (force to use city bus terminal)**

5. Local Legislation

Operative Fact

- “void legislative act xxx” (grant of cable TV franchise) does “not confer any right nor vest any privilege to xxx”
- An ultra vires ordinance is null and void and produces no legal effect from its inception if the basis of the ordinance is a void provision of a Memorandum Order
- A mayor cannot be held personally liable if his actions were done pursuant to an ordinance which, at the time of the collection, was yet to be invalidated

5. Local Legislation

<i>Veto</i>	<i>Review</i>
Intra-LGU	Inter-LGU
Local Chief Executive	Higher Sanggunian
Ultra Vires or Prejudicial to Public Welfare	Ultra Vires Question of Law
Province: 15 days City/ Municipality: 10	30 days
Reversal by Override	Reversal by Judicial Action

5. Local Legislation

Local Chief Executive	Vice-LCE/ Sanggunian
Executive; Ministerial to Implement; Veto or Approve	Legislative: Enact, Amend or Repeal
Appoint Employees of Executive Branch; Discipline an employee of Sanggunian per 1991 LGC	Appoint Employees of Sanggunian/ Office provided Appropriation of Sanggunian
Approves Disbursement Vouchers, Payments, Sign Warrants, Purchase Orders for Operation of Executive Departments	Approves Disbursement Vouchers, Payments, Sign Warrants, Purchase Orders for Operation of Sanggunian
Appropriations: Veto; If Approved, release of Public Funds authorized, authorization not in ordinance	Passage of Appropriations Ordinance; terms of loan obligation in ordinance (amended 2015)
Cockpits: Business Permit	Enabling Ordinance: License

5. Local Legislation

- **Separate Ordinance:** If 1st ordinance is couched in general terms, a separate ordinance is needed for transactions, bonds, contracts, documents, and other obligations that would authorize the mayor to enter
- **Role of NGAs:** When there is a Law and only on Questions of Law (i.e. DOJ for tax ordinances [but cannot declare excessive], DBM for appropriation ordinances [not OP, DENR and DILG])
- **Role of Courts:** Declare Invalid, Illegal and Unconstitutional (declaratory relief); **Courts will go slow in writing off an ordinance as unreasonable unless the amount is so excessive as to be prohibitive, arbitrary, unreasonable, oppressive, or confiscatory, examine municipal conditions as a whole**

5. Local Legislation

- **Contracts:** Prior authorization (unenforceable; may be ratified – acquiescence and benefit e.g. recognition; specific and current appropriation)
- **Effectivity:** Ordinances and resolutions approving the LDPs and PIPs formulated by the LDCs of the Sangguniang Bayan or Sangguniang Panlungsod become effective after review by the Sangguniang Panlalawigan, posting on the bulletin board, and publication

6. Public Accountability

- **2 Levels:** Corporate and Personal
- **2 Capacities:** Governmental and Proprietary
- “**faithfully discharge** their duties and functions as provided by law”
- “**Accountable** Public Officers”
- “**Real Party in Interest**” (dismissal and appointment; LGU, not mayor, when case filed by mayor on behalf of LGU)

- **2 Authorities:** Disciplining and Investigation
- **Senate Subpoena Powers:** **can compel Mayor to attend investigation hearings**

6. Public Accountability

- Enjoys **Fixed Term**; Has Term-Limit (Congress has power to fix the term of Barangay officials to 4 years. RA 12232 is a term-fixing law where rescheduling of the elections is an incident.)
- Subject to **Several Jurisdictions** (OP, not City Council, has jurisdiction over SK City Federation President)
- Effect of **Re-Election** on cases (not amount to condonation whether criminal or **administrative**)
- Rule on **Succession** (Permanent or Temporary, Acting Capacity if Temporary, Ranking, Last Vacancy, 2nd placer if 1st placer not eligible on day 1 (rule abandoned); **Vice-Mayor automatically assumes powers of mayor when mayor abroad**)
- **Position, not Person**: A writ directed at the mayor is not in his personal capacity, but in his capacity as municipal mayor, so that it is not irregular whether it was served upon him during his earlier term or in his subsequent one

6. Public Accountability

Term of Office

- Applies when Municipality converted to a City (or barangay in municipality later converted to a city)
